Subject: Refugio Incident -- Weekly Progress Report -- w/e August 28

Attached please find the Weekly Progress Report for the Refugio Incident for the week ending August 28, 2015 as required by the Order for Removal, Mitigation or Prevention of a Substantial Threat of Oil Discharge.

Plains Pipeline, L.P. is formally requesting a variance in the weekly reporting requirements outlined in Order No. 2015-01-FPN A15017 and as amended August 4, 2015, Order for Removal, Mitigation or Prevention of a Substantial Threat of Oil Discharge, dated May 27, 2015 (the Order). The requirement to prepare and submit daily progress reports is found in Section VIII No. 28. Plains is requesting a variance in the amended weekly reporting requirements, with progress reports being provided on a monthly basis beginning September 4, 2015. We feel that some of the items included in the weekly reports would be better reported on a monthly basis at this point in the response, now that significantly less activity is taking place. Information included in the current progress reports will continue to be provided until such time as no longer applicable.

Plains will continue weekly reporting as required until such time as we receive a response in writing (written direction by the FOSC is required in the Order). We greatly appreciate your consideration in this matter and are available to discuss this further if needed.

Thanks -- have a safe weekend

Jeffrey P. Dann, P.G.
